Joe Thornton entertained three guests at dinner at the Club last evening.

Two Plugs Tobacco and One Pound Tea Buy Beautiful Wife

The pas, man, (by mail to United Press).—What is the commercial value of a beautiful wife? The question has divided learned jurists through the ages. But Eskimo land has its own fixed rules.

John Littlebear is a trapper. He resides in the frozen stretches of the north of the Brochette fur post of the Hudson's Bay Company. John recently disposed of four wives in twelve days. All being especially beautiful, he received the top market price. Each wife brought one pound of tea and two plugs of tobacco.

"Dropped off ballast," was John's laconic explanation to interpreters. There was a glut of wives and not a leaf of tea or tobacco. One by one the dutiful wives were dropped.

Purchasers, reports say, were fellow trappers returning from the fur post heavily laden with supplies. They had long admired John's handsome wives and were ready bidders.

Columbia High Seniors Organize. The seniors of the Columbia High School met this afternoon to organize the group and make tentative plans for the year's activities.

The "Nice" People At Home Didn't Dance

And so John never learned how. But when he came to college, he found all the very "nicest" people dancing.

And he surely felt out of place because he didn't know how to dance.

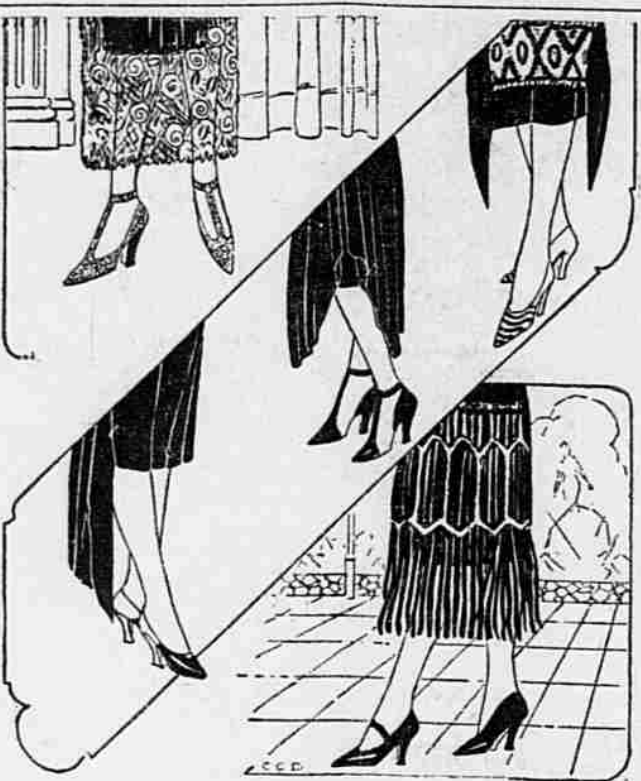

One day a friend happened to mention that he was taking dancing lessons at The Purple Parrot on Tuesday and Thursday evenings at 7 p. m.

So John came to see what the class was like and found learning to dance was a real pleasure instead of a task.

Now he can dance as well as any one. Only the conventional dances are taught.

UNEVEN IS THE HEM

It looks like the old days of standing still and having a skirt hung even over—but that isn't true. While gowns have drapes hanging unevenly at the sides or at the front—this studied carelessness is not a matter of abandon. The new soft materials, draped in classical or middle-age fashion are responsible for the disregard of the rigid straight hem.
